Sourcing, Inputting, and Validating Technical and Contractual Data in Leasepoint

CHALLENGE

A **global aircraft lessor** was challenged in sourcing, inputting, and validating technical and contractual data in Leasepoint® and to train staff on data requirements.

Zeevo professionals assisted the lessor in establishing a **robust data entry process**, with built-in quality assurance, input methodology, staff training, and status trackers to facilitate the sourcing and entry of data.

>>> APPROACH

- ▶ Determined in-scope data requirements, dependencies, and Leasepoint capabilities
- ▶ Instituted a quality assurance (QA) and input methodology for data from customers pertaining to utilization, shop visits, LLP disk sheets, engine swap details, and technical specs
- ▶ Sourced requisite documentation, input requisite data, identifying gaps and source errors
- ▶ Documented supporting business processes and developed customized training manuals

>>> OUTCOME

- ▶ Delivered a repeatable process with tools to facilitate the sourcing and entry of data and to ensure accuracy
- ▶ Performed data remediation, highlighting gaps and source errors and performed QA of entered data
- ▶ Created customized Leasepoint data SQL queries and Leasepoint data integrity checks to facilitate the initial QA process and the ongoing data integrity
- ▶ Developed status trackers for each dataset using Smartsheet to track progress at each phase

ZEEVO'S VALUE ADD

- ▶ In-depth knowledge of Leasepoint, including the framework, behavior, constraints and strengths of the system
- ▶ Provided subject matter expertise in technical and contract data, as well as expertise in Leasepoint optimization
- ▶ Identified the risks/issues related the efficacy of data entry, while accommodating the resource rotation and allocation
- ▶ Recommended enhancements to the client's Inspection Report template to use for future capturing and maintenance of Leasepoint data
