## Integrating SharePoint Lease File Details with Leasepoint Fleet Data

### CHALLENGE

A **global aircraft lessor** wanted to **integrate the detailed information** recorded in the lease-related documentation stored on SharePoint® with the lessor's fleet data maintained in Leasepoint®.

Zeevo professionals worked with the lessor to implement a solution to **extract lease file information from SharePoint and fleet details from Leasepoint to integrate both sets of data** for use with business intelligence tools.

### >>> APPROACH

- ▶ Solution used lease-related file details, including metadata, sourced from SharePoint and integrated with fleet data from Leasepoint
- ▶ Designed and implemented a Windows service to extract the SharePoint fleet file details using the available office 365 APIs
- ▶ Developed and implemented new business intelligence reports and dashboards to enable users to search for and view fleet-related SharePoint file details

### >>> OUTCOME

- ▶ The client benefited from the fully automated extraction and integration of SharePoint file details with Leasepoint fleet data
- ▶ Delivered solution enabled the lessor's contracts and commercial teams to search for and view different categories of fleet-related documentation stored in SharePoint
- ▶ Delivered a series of robust fleet reports and dashboards combining file detail from SharePoint and fleet data from Leasepoint

### ZEEVO'S VALUE ADD

- ▶ In-depth knowledge of Leasepoint, including system configuration and the underlying data model
- ▶ In-depth knowledge of available office 365 APIs
- ▶ Designed, developed, tested, and implemented the data extraction and the requested business intelligence reports and dashboards
