

CLIENT CASE STUDY >>>

Deploying a Solution to Perform Repeatable Fleet Utilization Analysis

CHALLENGE

The strategic planning team at a **global aircraft lessor** wanted a solution to perform repeatable fleet utilization analysis.

Zeevo professionals worked with the lessor to **develop monthly and quarterly views of component utilization data**, including year-over-year, average, and percentage change over time calculations.

>>> APPROACH

- ▶ Created a technical specification detailing the monthly and quarterly utilization views and calculation requirements
- ▶ Designed and developed the required SQL data views per the technical specification requirements
- ▶ The utilization data was sourced from Leasepoint®

>>> OUTCOME

- ▶ The client's strategic planning team benefited from the enhanced process for performing aircraft utilization data analysis
- ▶ The new SQL data views are available for use in business intelligence and reporting tools

ZEEVO'S VALUE ADD

- ▶ In-depth knowledge of Leasepoint®, including the underlying data model
- ▶ Subject matter specialization to design, develop, and implement the requested utilization SQL data views and calculation logic

WHY ZEEVO?
